Carlos Rodriguez, Founder of MCR Solutions
Alban Leandri, Growth Hacker at Lemonads
Anaël Laskri, Ex-Designer UX at N'joys

DEVELOPER FULLSTACK

Enterprise Resource Planning, MCR Solutions (Lausanne)
from Jun. 2022 to Jan. 2023

Within the international division of MCR, whose clients are pharmaceutical laboratories, my missions consisted of the implementation of a mobile application for inventory management on **Windev mobile**, the creation of new features on **Angular JS, React** and **Windev** with management of **SQL** queries, bug fixes and customer support management

PYTHON DEVELOPER FOR GROWTH HACKING

Affiliation Marketing Agency, Lemonads (Geneva)
from Sept 2021 to March 2022

Lemonads was looking for a way to collect data from publisher websites and send ultra-targeted prospecting emails. This solution had to be accessible, 100% autonomous, operate 24/7 and provide good quality data without leaks. I developed a **Python** solution with the **Scrapy** library running on **Zyte** server managed by **n8n.io** and connected to Google docs.

FOUNDER

Marketing Agency, Golden Muse
from Sept 2020 to July 2021

I created this marketing agency to help those who have the vision of what they want but do not know how to transcribe it technically in an efficient way. Using my skills in graphic design, marketing and web development, the challenge was to create effective elements and educate my clients to do it by themselves using tools like **Canva, Wordpress...**

JAVASCRIPT DEVELOPER & CO-FOUNDER

Marketplace E-commerce, N'joys
from March 2020 to August 2020

The concept of this start-up creation was to combine a lottery e-commerce website with a gaming experience. To do so, I coded a simplified version of the poker game card with **Canva** to reveal the lottery result and implemented the **MERN stack** for the custom e-commerce platform

TRIPS TO THE USA, NEW-ZEALAND AND NEPAL

Hiking, Working and Learning English in classes
from Sept. 2017 to Feb. 2019

SOCIAL MEDIA MANAGER

Social Media & E-reputation Agency, IDAOS
from Sept. 2016 to July 2017

In order to increase the visibility of social media profiles for IDAOS customers, I started to implement the monitoring of stats about content, created more meaningful content and implemented social media automation tools to drive social media account growth

COMMUNITY MANAGER

Consumer knowledge based on panels, Kantar Worldpanel
from Sep. 2015 to July 2016

To ensure that social media followers receive accurate information posted by KWP employees without censoring posted content, I trained them on the correct use of Twitter and created regular live-tweets around events

MARKETING ASSISTANT

Property Development, Bouygues Immobilier
from Sep. 2014 to June 2015

I got involved in managing the content of the corporate blog "demainlaville.com" with the mission of publishing one article per day with the best possible Google ranking. To do this, we hired an expert writer to always have content in advance and a SEA agency to optimize the content
